

Designer: _____ Builder: _____

Engineering Drawing Survey

Circle yes or no.

1. Did the drawing list what materials you needed to build the car?	Yes	No
2. Did the drawing include measurements of the different pieces of the car?	Yes	No
3. Did the drawing clearly show how to put the pieces of the car together?	Yes	No
4. Were the different parts of the car clearly labeled?	Yes	No

2. Describe how the car worked during testing.

3. List some things about the drawing that you think were **REALLY** good.

4. List some things you would tell the design group to help them make their drawing better. Remember to keep your advice positive.
