

Measuring Noise Pollution Pre-Activity Survey

1. How would you describe an environment?
2. How would you describe pollution?
3. Have you ever hear about noise pollution? What do you think might cause noise pollution?
4. Have you ever heard the term decibel (dB)? What do you think decibels are used for?
5. What is a microphone?
6. What is a sensor?
7. What might an engineer do to protect a person against noise pollution? (Be creative!)
