

# Nanotechnology Scavenger Hunt Student Sheet

## Little Known Facts in Nanotechnology

---

*There are eight symbols around the room you need to place in the correct order. You complete this task by correctly answering a series of questions.*

1. Begin by answering a question on one of the slips at your desk.
  - a. *Clue: all answers are numbers.*
2. Find the answer to your question written on the bottom of a QR code placed around the room.
3. Record the Symbol above the QR code.
4. Scan the QR code and read the new question. Find its answer at the bottom of a different QR code.
5. Repeat Steps 2-4 until you find all eight symbols in a particular order.
  - a. *Clue: The question read at your desk should be the last question you find.*

**Use the space below to take as many notes as you need.**

**Draw the correct order of symbols in the boxes below.**
