

Name: _____ Date: _____ Class: _____

Activity Worksheet

1. What are the steps to make an algae juice model?
2. What happened when you added the juice and sodium alginate mixture to the calcium solution?
3. Use your senses to describe how the juice sphere looked, smelled, felt and tasted.
4. Describe the sensation of how the juice model felt in your mouth.
5. What parts of the algae cell are represented in the algae juice model?
Draw a picture and label the parts.
